Giving Shape to Ideas

۲

# SETTING HIGHER STANDARDS IN COLOUR AND DURABILITY

۲

**Colour Production Press** 

Ð

# Have it all in one press: enhanced productivity, expanded print services and brilliant quality.

Imagine having a single press that literally does everything: 2-sided banner printing, professional finishing, high productivity up to 80 ppm, real-time automated quality adjustments, excellent image quality and so much more. That's the AccurioPress C3080 series from Konica Minolta, our revolutionary production colour press with features that allow your business to expand into new markets and develop new revenue streams.

۲

# Brilliant image quality, print after print

Konica Minolta's exclusive IQ-501 Intelligent Quality Optimiser provides easy-to-use, real-time auto colour adjustments functions for brilliant quality.

#### Improve efficiencies

Your AccurioPress C3080 series operators can count on simple setup, an ultra-reliable paper path, exceptional print speed and outstanding automated image stability for superior output and minimal waste. It all adds up to world-class productivity on every job, and unlike some of its competitors, the C3080 series' Energy Star rating ensures that your business is efficient even beyond your print floor.

#### Grow your business

The AccurioPress C3080 series expands your business with capabilities that your clients have been looking for: thick paper (up to 350 gsm), embossed media and envelopes. The auto-duplex banner printing option lets you produce 6-page tri-folds, brochures, book jackets, pocket folders and more, previously only available on an offset press.

#### A single engine does it all

The AccurioPress C3080 series provides a fully configured press to expand your business offerings and capabilities. You can print flat sheets, duplexed banners, fullbleed, saddle-stitched books and perfect bound books to meet your clients' every need, all in one press.

۲

# $\overline{P}$

#### Fastest dual-colour scanner

The AccurioPress C3080 series delivers reliable high-volume scanning with enhanced Open API and IWS applications support.

# Durable and reliable for maximum uptime

With one of the most aggressive monthly duty cycle ratings in the industry, you can trust the AccurioPress C3080 series to perform to meet those tight print deadlines. ۲

# IQ-501 intelligent quality optimiser redefines accuracy

You expect quality and precision from Konica Minolta and the new IQ-501 Intelligent Quality Optimiser lives up to our reputation. Colour consistency, closed-loop paper registration — image-on-image, image-on-paper and side one/ side two registration — on every page, measured and managed automatically, in real time, by your digital press. What if you could skip the use of an external spectrophotometer, manual measurements or complex colour formulas, yet achieve the highest industry standards for colour and registration with the simple touch of a button?

You can, today, with the IQ-501 Intelligent Quality Optimiser on the AccurioPress C3080 series. How IQ-501 will drive results for your business:

- Eliminating variability in colour and registration
- · Reducing waste through real-time auto correction/detection
- Reducing manual intervention
- · Increasing uptime with automated, system self-correction
- Executing the highest standards of accurate colour that meet G7, Gracol and other print industry calibration requirements

The IQ-501 Intelligent Quality Optimiser is compatible with all controller offerings and allows you to achieve industry standards for colour, such as G7 and Gracol, all at the touch of a button. The C3080 series also supports Cloud-based colour management software for further colour control.

#### How the IQ-501 works

۲

IQ-501 Intelligent Quality Optimiser uses a spectrophotometer/scanner hybrid system to examine each sheet in real time, and with the closed-loop feedback system, that continually measures and transmits colour density, colour fidelity and registration information to the process controller. Corrections are then made on the fly, ensuring that every print is of the highest quality, colour and overall consistency.

Now available for the IQ-501 is the Auto Inspection Unit. This option takes the IQ-501 and the print system to new levels of automation. With the capability to check each print for defects, the IQ-501 with Auto Inspection Unit ensures only the highest quality prints are included in the print output and eliminates the need for operators to manually check the output for known print errors. This results in greater efficiencies in terms of labour and costs.

## At a glance

#### AccurioPress C3080 Series

- Speeds up to 80 ppm
- Duplex printing on media weights up to 350 gsm
- On-board media catalog system for one-touch operation
- Duplex banner printing up to 762mm\*
- Simplex banner printing up to 1300mm\*
- Automated, in-line quality management
- Choice of print controllers including Konica Minolta, EFI Fiery and Kodak/Creo\*\*
- Industry-leading range of finishing options
- Convenient high-speed scanning
- Superior print capacity with a monthly duty cycle up to 864,000 A4 pages (C3080)

۲

Combining industry-leading image quality with powerful finishing options and an extended range of media choices means your business can meet all your clients' needs.

> \* Specific Media Feed and finishing options required \*\* Restriction apply to C3070L

# Engineered to exceed expectations

## Automated processes to drive productivity.

AccurioPro is a comprehensive suite of modular tools and solutions that automate labor-intensive processes to streamline workflow and maximise productivity. AccurioPro helps you reduce costs, increase accuracy and strengthen your investments.

#### AccurioPro CloudEye

Our Cloud-based colour management system enables highly accurate colour management of printers at multiple locations. The easy-to-use browser-based interface enables any operator to produce accurate, real-time colour output on printers located locally or globally!

#### AccurioPro Flux

۲

AccurioPro Flux is a powerful make-ready solution for professional print management, job editing, cluster printing and product-based job processing. It allows you to manage incoming jobs by choosing from a wide range of intelligent print functions. AccurioPro Flux optimises your print output and processing while minimizing costs, reducing waste and saving time.

#### AccurioPro Connect

AccurioPro Connect provides you with the tools you need to streamline your production print workflow. This powerful application allows you to automate pre-press processes, customise complex print jobs, manage files by rules for colour, page count and metadata as well as connect to other AccurioPro systems, manage job ticket information and much more.

#### Best-in-class media range

The AccurioPress C3080 series can print up to 350 gsm stock. It produces outstanding quality on brochures, postcards, menus, sales promotion flyers, shelf-talkers, signage, select packaging and other applications. The dedicated envelope fusing technology delivers high-quality, low-cost envelopes quickly and efficiently.

۲

#### **Creative media catalogs**

We take our reputation of image excellence seriously so we've enhanced our media catalog feature in the AccurioPress C3080 series like never before. Each press is equipped with precise, built-in media selection parameters that ensure exactly the optimal settings, increasing productivity by automatically matching the best print settings to the media selected.

#### Large capacity banner printing

The C3080 series allows you to print the longest banners in its class, up to 1300mm simplex and auto duplex on media up to 762mm in length. An optional paper feeder for 762mm banners accommodates 1,000 sheets for continuous feeding.

# Wide range of finishing options for unmatched productivity & versatility

۲

## **Finishing options**

۲

The AccurioPress C3080 series features a variety of finishing options to meet customers' needs and tap into new revenue streams.

## Powerful print controllers to optimise your workflow

Konica Minolta's integrated print controller delivers a powerful, affordable colour management solution that supports Konica Minolta Solution Platform Open API and IWS-related applications. The new web-based job management interface lets the user manage their jobs in any web browser without the need to install proprietary software.

Both EFI Fiery and Creo controller options offer graphic communications professionals unprecedented colour performance with advanced colour management controls, spot colour libraries and seamless integration with third-party systems, to mention just a few.

## Made to boost your business.

#### **Commercial printers**

۲

The AccurioPress C3080 series delivers in-line, closed-loop quality management for automated colour calibration and control, and in-line automated image registration without the need for highly specialised press operator skills. Combined with its ability to print on stocks up to 350 gsm, envelopes and banners, the C3080 series brings your commercial print business a whole new world of possibilities.

#### **Digital Printers**

The AccurioPress C3080 series is an ideal solution for digital printers — and it's affordable. The one-touch closed-loop image quality management, huge array of stock choices and extremely robust inline finishing suite means it meets or exceeds the exacting standards of short-run on-demand workflows.

#### CRD

The AccurioPress C3080 series offers the high-speed scanning, versatile controller options and one-touch media setup critical to the diverse legacy job flows and ultra-tight turnaround times of the typical in-plant/CRD environment. The C3080 series meets those demands with a smooth, productivity solution, small footprint, less specialised work force requirement and the green advantages of Energy Star compliance.

### Designed for our planet.

Konica Minolta's Planet Ark Program provides cost-free recycling for all our consumables, that include toner cartridges, used toner bottles and Waste toner containers, all of which will be picked up free of cost and used to create new excited recycled products, saving waste going to land fill.

#### Sustainability

Our exclusive Simitri<sup>®</sup> HDE toner formulation uses plant-based biomass material to reduce environmental impact. Our presses use recycled PC/ABS resins and bioplastics in construction. The AccurioPress series models are EPEAT-Gold Certified and achieve among the lower power consumption rate of presses in their class.

#### **Ecovision 2050**

We're committed to a mid-century goal of reducing  $CO_2$  emissions by 80% from 2005 levels, minimizing greenhouse gases that may contribute to global warming. We pursue that goal every day, with focused energy savings, clean manufacturing and highly efficient recycling practices.
