Colour workgroup printer 35/35 ppm

magicolor 8650DN

# Colour pro

The magicolor 8650DN is all into colour. In addition to being creative it also brings speed and a professional attitude to the table. This top-notch A3+ printer is designed for medium-sized organisations and creative departments in need of a premium colour solution that combines formidable media flexibility and a wealth of finishing solutions with the possibility to keep a close watch on costs.

## ➔ Discover a power of printing

Zip through massive print jobs at a top speed of 35 ppm - ideal for graphics and prepress environments that demand fast and professional-quality colour printing. Combine this with 100% paper duplex productivity, add the power of the latest proprietary Emperon™ controller and a PowerPC® 1 GHz processor and back it up with a 1 GB memory to achieve continuous high-volume output.

- Staple finisher and saddle kit for automatic booklet creation
- 2x500-sheet lower paper feeder

- 2x500-sheet lower paper feeder

- Staple finisher for up to 1,200 sheets output and stapling up to 50 sheets
- 1x500-sheet lower paper feeder

- Staple finisher, output tray and mail-bin unit for separation of prints into 7 mailbins
- 2,500-sheet lower paper feeder

## → Give extra dimension to your colour prints

The magicolor 8650DN's colour printing is not only extremely fast, image quality is also astonishingly detailed. Konica Minolta's proprietary Simitri™ HD polymerised toner in combination with PhotoART 19200 contone technology printing at 600 x 600 x 5-bit enables razor-sharp picture detail and smoother colour gradations. 5 bits for each pixel translates in more colours produced for every pixel, the extra bit further improves the reproduction and readability of fine lines and thin characters. ICC profile support enables easy uploading of profiles ensuring more precise colour output. In short, with the magicolor 8650DN images and colours are cleaner and more vibrant!

## → Save when and where you can

When you need to print internal documents, the magicolor 8650DN's toner save mode can conserve up to 50% of toner. Its convenient auto-colour recognition function reliably distinguishes between colour and black-and-white and prints in colour only where necessary. As an extra saving feature you can also programme limitative access rights for colour printing so that only designated users can print in full colour.

## → Ensure next-generation processing and compatibility

Guarantee that your printing operations are attuned to the latest document processing standards. The magicolor 8650DN's state-of-the-art Emperon system is equipped with native XPS support. Print quality is more accurate and document sharing across the network is improved. Compatibility with a range of printing languages (PostScript® 3™ and PCL® 6), operating systems and business applications is a given.

## → Enjoy the art of creative finishing

Take creative command of your in-house printing with the magicolor 8650DN and create a bigger impact with custom, high-impact promotional materials. The printer allows you to produce commercial quality reports and booklets with the help of the automatic duplex unit and optional staple finisher. And its impressive media flexibility and wide choice of finishing options make it is easy to step up the refinement level even more:

- The duplexer and all feeder handle paper up to 256 gsm
- Up to 271 gsm, labels, OHP, etc. via manual feed tray
- 1.2 m-long banners and other oversized formats
- Offset sorting function
- Optional hole punching and stapling
- Booklet-option for saddle-stitched & folded booklets
- Optional mail-bin unit for separate printing output

## → Get creative with paper options

To tame the creative and productive powers of this printer you can rely on the unit's large paper input capacity. With a standard capacity of 1,150 sheets (2x500-sheet and a 150-sheet manual feed tray) that can be extended with a variety of paper options to a maximum of 3,650 sheets, the magicolor 8650DN packs enough paper and paper options to get you through the biggest assignments without breaking a sweat.

**The magicolor 8650DN is your colour printing partner in which the best of speed and productivity meets the wonders of creativity.**

KONICA MINOLTA

## Technical specifications

<b>Processor</b>	PowerPC® MC7447 @ 1 GHz, 64 BIT
<b>Print speed (ppm)</b>	35 colour / 35 monochrome
<b>Resolution</b>	PhotoART 19200 (600 x 600 x 5-bit contone)
<b>Duty cycle</b>	up to 150,000 prints per month
<b>Memory</b>	1 GB
<b>Standard interfaces</b>	Gigabit Ethernet (10/100/1000BaseTX) / USB 2.0
<b>Media sizes</b>	<ul style="list-style-type: none"> <li>• A3, A3 Wide, A4, B5, B5 (ISO), A5, A6, B6, B4, D8K, Ledger, Legal, Letter, G-Letter, Statement, Executive, Folio, UK Quarto, Foolscap, G-Legal, 4"x6", 12"x18", Custom (90-311 * 140-1200 mm), Com10, C5, C6, DL, Monarch</li> <li>• banner printing up to 297x1,200 mm</li> </ul>
<b>Media weight</b>	<ul style="list-style-type: none"> <li>• up to 256 gsm - all paper feeder</li> <li>• up to 271 gsm - manual feed tray</li> </ul>
<b>Media input</b>	<ul style="list-style-type: none"> <li>• standard: 2x500-sheet, 150 sheets manual feed tray</li> <li>• optional: 1x500-sheet lower paper feeder, 2x500-sheet lower paper feeder, 2,500-sheet A4 lower paper feeder, desk, banner tray</li> </ul>
<b>Media output</b>	<ul style="list-style-type: none"> <li>• 250-sheet (face-down) bin</li> <li>• 1,200 sheets optional staple finisher</li> </ul>
<b>Print media types</b>	plain paper, thick paper, recycled paper, transparency, letterhead, envelope, labels, postcard and glossy paper
<b>Optional configuration *</b>	<ul style="list-style-type: none"> <li>• staple-finisher: 200+1,000 sheets output, stapling of up to 50 sheets</li> <li>• 3<sup>rd</sup> output tray</li> <li>• mail-bin unit: 4-bin mailbox</li> <li>• saddle kit: centre-fold, booklet</li> <li>• punch kit: 4-hole punching</li> <li>• security chip: HDD data encryption</li> <li>• option connection board and USB host board: USB memory print, interface for authentication devices</li> <li>• biometric (finger vein) or IC Card authentication: user authentication, special secure print function</li> </ul>

<b>Operating system compatibility</b>	<ul style="list-style-type: none"> <li>• Windows® 2000/XP/XP64/VISTA 32/64</li> <li>• Macintosh® OS9.2 / OSX 10.2,3,4 / OSX 10.4 (intel version)</li> <li>• Netware® 4/5/6</li> </ul>
---------------------------------------	---

**Colour control** SWOP, Commercial Press, Eurocolor, DIC, TOYO, Japan color, JMPA color, SNAP, PANTONE® Colour tables, ICC device profiles

**Secure printing** Hard disk option required<sup>1</sup>

**Language compatibility** XPS, PostScript 3, PCL6c (PCL 5c + XL3.0)

**Warranty** 1 year on-site (within EU; local law applies)

<sup>1</sup> Optional hard disk kit enables secure printing, proof then print, print & hold and job storing, increase of user accounts from 30 to 1,000, font download, ICC profile download, tray mapping, macro download. All specifications relating to paper capacity refer to A4-size paper of 80 gsm quality.

All specifications relating to printing speeds refer to A4-size paper that is printed crosswise in multipage, simplex mode. Some of the product illustrations contain optional accessories. The support and availability of the listed specifications and functionalities varies depending on operating systems, applications, network protocols as well as network and system configurations. The addition of some options, in some combinations may cause the product to become non-compliant. Establishment of new regulations may cause the product to become non-compliant. Energy Star compliance does not represent an EPA endorsement of any product or service. Specifications and accessories are based on the information available at the time of printing, and are subject to change without notice.
