

Enterprise document imaging for business process efficiency

eCopy™ ShareScan® Suite™

With ShareScan Suite software, office workers can use their multifunction peripherals (MFPs) to scan documents securely and seamlessly into business applications that support electronic business processes. It provides a consistent, easy to use interface across any capture device, promoting user adoption and increasing the value of enterprise hardware and business software investments.

The software offers native integration to leading document management, e-mail, fax, database, collaboration, and cost recovery software applications.

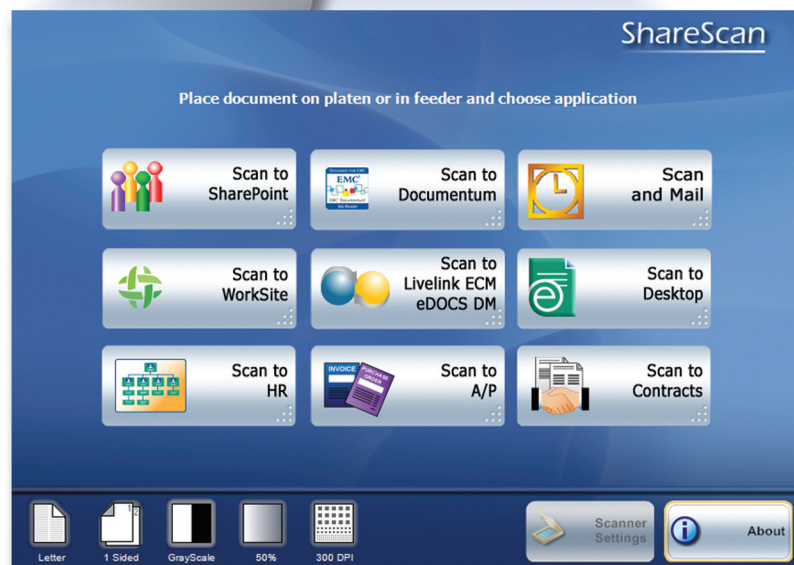

ShareScan Suite includes all of the components an organization needs to save time, reduce costs, and increase business results through an automated solution that securely puts paper documents directly into their electronic workflows.

What's included in ShareScan Suite

- **ShareScan** connects your MFP to your organization's networked enterprise applications for easy to use, secure distribution of paper-based information.
- **eCopy Desktop™** is PC software that enables office workers to work faster and more efficiently, making it easy to capture, combine, edit, and secure scanned documents as PDFs.
- **eCopy Connectors and Services** link eCopy-enabled devices with software applications to give users the ability to scan directly to those applications. eCopy ShareScan Suite includes Connectors and Services to applications such as:
 - Captaris RightFax
 - EMC® Documentum Content Server® (D6)
 - Interwoven WorkSite
 - Lotus Notes
 - Microsoft® Exchange™
 - Microsoft SharePoint™
 - Open Text Livelink ECM
 - Open Text Livelink ECM - eDOCS DM™
 - eCopy Quick Connect
 - Cost Recovery Applications
 - Bates Stamping

Additional Connectors to business applications are available.

A familiar and intuitive user interface assists the user in quickly sending scanned documents to their destination.
