KONICA MINOLTA
MarketPlace

Giving Shape to Ideas

Cutting-edge apps and technology for your MFP.
Welcome to Marketplace.

Award winning. Powerful. Centralised.
That's Konica Minolta MarketPlace.

Konica Minolta MarketPlace customises your MFP (MultiFunction Printer) to work the way you work. Making it simple to browse, purchase and download apps that add power to your MFP.

MarketPlace apps are designed for your business needs. There are apps for scanning, printing, social networking, document management and more. You can even personalise your MFP control panel with the easy-to-use UI Design Tool. With new apps and features being developed all the time, Konica Minolta MarketPlace will take your MFP — and your business — to the next level.

Customise your MFP to work your way.

Just as all of the departments in your business aren't the same, your MFPs don't have to be either. That's why we offer the MFP user interface (UI) Design Tool. It allows you to make your MFP work exactly how you want it to work.

Go beyond business as usual
Simplify your control panel with the controls you perform most often and link to third-party apps for easy access to the features you rely on. You can do all this and more with your MFP and MarketPlace.

Centralised IT capabilities
No longer will you have to physically visit each and every MFP to customise it. You can easily install and manage custom UIs and apps on your entire fleet of workplace MFPs — from one convenient, centralised location.

Easy to use
The drag-and-drop UI Design Tool is simple to use. It's web-based tool allowing you to position controls using an MFP preview screen as well as:

- Specify a background color for the MFP screen and background image
- Add control labels and text to the MFP screen
- Preview and test the customised MFP screen before you install it
- Add and position logos or other images on the MFP screen
- Run your customised MFP UI as the default interface that appears when the MFP is first powered on.

Customised MFP. Maximised productivity.

By customising your MFP with the features and apps you use most, you can add serious productivity at the control panel:

- Your company's brand will be visible throughout the workplace
- Your touchscreen will be as personal and intuitive as a smartphone
- You'll have fast, easy access to the apps that simplify workflow and speed productivity
- Your customised, intuitive MFP screens will reduce the learning curve of new hires or temporary employees — because they can get the job done with fewer clicks.

Konica Minolta Marketplace apps and connectors:
Powerful technology at your fingertips.

Cloud Apps

bizhub Connector for Cloud files
Simple and secure access to your Cloud-hosted business files

Access the online file sharing and Cloud content management service, Box, with the bizhub Connector for Box app. You can do all this and more right at your MFP:

- Browse through your Box folders
- Access, preview and print files
- Scan documents into Box

bizhub Connector for EverNote
Easily connect, scan and share your information in the Cloud

Getting organized is easy with the bizhub Connector for Evernote app, which provides direct access to Evernote, the popular Cloudbased application designed for taking and storing notes. You can do all this and more right at your MFP:

- View your Evernote notebooks and notes
- Print notes
- Upload new notes into specific notebooks with the bizhub Connector for Evernote app, your notes, files and images are always at your fingertips.

bizhub Connector for Google Drive
A direct line to Google documents

Browse, preview, print and upload Google documents — without ever leaving your MFP. Once logged into your Google account at the MFP's control panel, you can:

- Browse and search Google docs
- Preview and print Google docs
- Scan and upload your paper documents to folders

SMB
Information Apps

bizhub Connector for OneDrive & Connector for OneDrive Business
Scan, print and upload files

Take advantage of connector apps to OneDrive and OneDrive Business. With these separate apps, you can:

- Scan documents into your OneDrive and OneDrive Business Cloud account
- Print existing files
- Perform basic file and folder operations

Since OneDrive allows you to sync files between different devices, you can scan a file from the MFP and have that file appear on all your connected devices.

bizhub Connector for Gmail
Simple access to Gmail and Gmail attachments

Browse, preview and print your emails and attachments directly from Gmail — without ever leaving your MFP. Take advantage of Cloud technology with the bizhub Connector for Gmail app. Once logged into your Gmail account at the MFP's control panel, you can browse, search, preview and print email and email attachments.

Connector for SharePoint Online
Scan, print and more in SharePoint Online

You can scan to SharePoint Online with this easy-to-use app. With the Connector for SharePoint Online, you can:

- Scan folders into SharePoint Online
- Print SharePoint Online files
- Perform basic file and folder operations in SharePoint Online

Bizhub Connector for dropbox
Easily access your files in the Cloud with the bizhub Connector for Dropbox, you can manage your Dropbox files in the Cloud, right from your MFP

With this easy-to-use app featuring a finger-swipe touch control interface, you can do all this and more:

- Browse folders
- Preview and print files
- Scan documents into Dropbox

Announcement
A strong corporate culture depends on sharing information, announcements and marketing messages with every employee — and with the Announcement app, you can customise your MFP control panel to display a corporate ad or announcement:

- Ads appear as a screensaver on the MFP when the MFP is not in use so that it never interferes with normal work
- View, pause or repeat an ad or announcement, or click on a link to view more information online
- For corporate/enterprise environments, there is the Corporate Announcements application, a PC-based software solution that allows you to manage multiple ads on multiple MFPs

Now you have the tools you need to build your company's corporate culture by broadcasting your announcements and ads

Print Apps

Paper Templates Lite

A library of forms at the touch of a button with the Paper Templates Lite app, you can access and print the forms and documents you need most, including:

- Cover sheets
- Permission forms
- Certificates
- Ruled paper
- Graph paper
- Blank sheet music

Simple on-screen commands make it easy to specify paper size, number of copies and finishing options. You'll save time by eliminating the need to go to your PC and because forms are stored electronically in your bizhub MFP memory, you won't have the expense of stocking and storing preprinted forms. Note that this free app does not include the import/delete document feature included with the Paper Templates app. Also, documents printed from this app will display a Konica Minolta logo watermark. To remove this watermark, upgrade this lite application by purchasing the complete Paper Templates app.

Security Apps

bizhub SECURE Notifier

Confidence that your bizhub is protected

When your bizhub has the lockdown protection of bizhub SECURE Notifier, you have the resources you need to protect valuable data on your bizhub's internal hard drive. This app makes it easy for you to check the status of your bizhub SECURE settings, including:

- Administrator password
- HDD encryption
- HDD password protection
- Auto document deletion
- Temporary data overwrite

The bizhub SECURE Notifier app visually indicates whether or not the MFP is secure, lists the status of your security settings and allows you to print out status reports. With bizhub SECURE Notifier, you can have immediate peace of mind that your data is secure and protected.

Workflow Apps

Connect to Microsoft Sharepoint

Access your Microsoft SharePoint account from your MFP with Connect to Microsoft SharePoint, you have one-touch access to your Microsoft SharePoint account from your MFP

Microsoft SharePoint is a productivity platform that empowers people to work together more effectively — sharing information, organising data and collaborating with point-and-click ease. Once logged into your SharePoint account, you can do all this and more from your MFP:

- Upload data and store files in a SharePoint library
- Browse, print and edit SharePoint documents

For simple data backup and fast, secure storage and retrieval, the Connect to Microsoft SharePoint app is an essential workflow advantage. You can also store files for easy access when you're in remote locations.

Connect to OnBase

Scan, index and upload from your MFP

Scanning, indexing and storing critical information directly into OnBase, Hyland Software's enterprise content management solution, is faster, more convenient and easier than ever with the Connect to OnBase app. Documents can be indexed directly from the control panel on the MFP and then uploaded into the correct OnBase repository, making documents available immediately throughout the enterprise.

Ready, set, go to
Marketplace.

Apps to enhance productivity.
Customisation to work smarter.
Sound good? It is.

BROWSING AND PURCHASING YOUR APPS ONLINE

To begin	Go to konicaminoltamarketplace.com to access the MarketPlace online.
Log in	To create a free MarketPlace account, click on the User icon and then enter your email address and password to quickly set up your account.
Browse apps	The MarketPlace website has all the information you need — including illustrations and detailed descriptions of each app.
Purchase apps	The app license can be purchased from your MFP reseller because they can assist with the overall experience and provide any local support that you may require.

ACCESSING THE MARKETPLACE FROM YOUR MFP CONTROL PANEL

To begin	Tap on the MarketPlace button on your bizhub MFP screen. The apps that are currently installed will be displayed.
Manage apps	Tap on the App Manager button to install, configure and remove apps. You will be prompted to log into your MarketPlace account and then enter the MFP's administrative password before accessing the App Manager.

INSTALLING APPS ON YOUR MFP

View purchased apps	On the MFP's App Manager screen, tap on the Purchased tab.
Install	Tap on the Install button next to the app you want to install. You'll be able to watch the installation process taking place*.

CONFIGURING YOUR APPS

To begin	On the MFP's App Manager screen, tap on the Settings button next to the app that you want to configure.
Modify settings	Edit settings for the app on the Configuration screen that appears.

REMOVING APPS FROM YOUR MFP

To begin	On the MFP's App Manager's Installed screen, tap on the Remove button next to the app that you want to remove.
Remove app	Tap on the Remove button on the Delete Confirmation screen that appears.

CREATING CUSTOM UIs

Click on the MFP UIs link on the MarketPlace website to get started. You now have the ability to view, create, edit and manage custom UIs for your MFP. A custom UI designer tool makes it simple to customise your MFP to suit your specific business needs.

MANAGING YOUR DEVICES

Click on the Devices link on the MarketPlace website to view and manage the devices that have MarketPlace installed on them. You can also click on the Apps & Licenses link to install apps and custom MFP UIs on MFPs throughout the workplace.

REQUIREMENTS

Installation of the MarketPlace application must be performed by an authorized service technician. The MFP must be optimised for internet connectivity. Appropriate memory upgrade kit and i-Option license kit must be purchased and installed. (Some engines are equipped with required memory and/or i-Option web browser license kit. Check machine specifications for details.)

COMPATIBILITY

https://www.konicaminolta.com.au/products/office-printing/marketplace

* Please refer to the MarketPlace website for the most up-to-date information regarding compatibility.

Optimise workflow.
Maximise productivity.
Yes, we have an app for that.

Award winning

In 2017, Konica Minolta MarketPlace was recognised by Buyers Laboratory, Inc. (BLI) for its "Pacesetter Award for MFP Platforms" and "Outstanding MFP App Ecosystem Pick Award." Over the years, MarketPlace has also been recognised for its customisation capabilities, library of productivity-enhancing apps and cost-saving print management features that can be deployed via the custom UIs.

Powerful

Imagine what you can do when you enhance your powerful MFP with cutting-edge technology. MarketPlace integrates with many of the apps and services you already use every day — apps for scanning, printing, Cloud access, communication, security and more. By offering the latest technology, MarketPlace can help you extend the functionality of your MFP.

Centralised

Perfect for the enterprise, you can manage and install apps across a fleet of MFPs — all from one, centralised location. Work remotely or at your MFP control panel. It's your choice. Just create an account, browse the apps, checkout and install. It's that easy to put new apps to work for you.
